Why REACT?

REACT isn't a typical escape room. Our five large-scale adventures unfold across **multiple connected rooms** — players move through sequentially unlocking spaces, solving layered puzzles as a team. Every group gets the venue to themselves. No strangers, no distractions, just your students fully immersed in a shared challenge.

STEM Connections

- **Science:** Observation, hypothesis testing, cause-and-effect reasoning
- **Technology:** Interactive mechanisms, comfort with unfamiliar systems
- **Engineering:** Levers, sequences, spatial relationships, physical components
- **Math:** Pattern recognition, numerical sequences, logical deduction
- **ELA:** Active reading, following multi-step written instructions
- **SEL:** Communication, leadership, persistence, conflict resolution

Aligned with Common Core and Next Generation Science Standards.

Our Five Adventures

- Jurassic Jungle** — Survival-themed. Best for younger elementary. High-energy, colorful, accessible.
- Strangest Things** — Supernatural mystery. Fan-favorite for middle and high school groups.
- Raiders II** — Adventure and treasure-hunting. Works beautifully for all ages.
- Hungover Games** — Comedy-driven party challenge. Great for older students and counselor groups.
- One additional adventure** — Ask about current offerings when booking.

Frequently Asked Questions

Q: Is this appropriate for elementary students?

Yes. Jurassic Jungle is designed to be fully accessible for younger players. Staff can provide guidance throughout.

Q: Can we split a large group across adventures?

Absolutely. Groups of 100+ regularly book multiple adventures running simultaneously, with students rotating.

Q: Do students need prior experience?

No experience needed. Staff provides a full briefing before each adventure begins.

Q: What if a student has accessibility needs?

Call ahead and we'll discuss accommodations. We want every student to participate.
